The **Africa Research Forum** (ARF) is an interdisciplinary discussion group for postgraduate students, visiting academics, and Cambridge University faculty members working on Africa-related topics. Participants from any academic discipline are welcome to attend our informal meetings, in advance of which the speaker circulates a short 'work in progress' paper via CamTools. If you wish to receive notifications of upcoming presentations and copies of pre-circulated papers, please join 'Africa Research Forum' via the URL link listed under 'Joinable Courses & Projects' at <https://camtools.cam.ac.uk>.
