CAMBRIDGE AFRICAN MONOGRAPHS 5

CONSERVATION IN SUB-SAHARAN AFRICA:
An Introductory Bibliography for the Social Sciences

Compiled by J.A. Seeley

CAMBRIDGE AFRICAN MONOGRAPH 5

1985

(c) African Studies Centre, Cambridge

The Centre for African Studies was founded in July 1965 to facilitate interdisciplinary research and teaching in modern African Studies in Cambridge. The African Studies Series is published by the Cambridge University Press in association with the Centre.

The Cambridge African Monograph Series is published by the Centre itself. The aim of the series is to make available occasional research reports, seminar papers, conference proceedings and bibliographies relating to African Studies.

This bibliography is based on a workshop on conservation in Africa held at the Centre in April 1985, organised by David Anderson and Richard Grove. It is expected that the proceedings will be published elsewhere in 1986.

ACKNOWLEDGEMENTS

I am very grateful to a number of people who have contributed to the compilation of this work. The workshop participants provided the basis of this bibliography, particularly Dave Anderson, Richard Grove, Dave Collett, Keith Eltringham and Richard Luxmoore who not only suggested works to be included but proof-read and checked the compilation. Robin Adams at the Medical Library, Cambridge, assisted with the data-base search.

At a more personal level I wish to thank Ludgard De Decker who provided many hours of invaluable technical help and encouragement in the production of this volume and also Neil Wright for his advice and support.

INTRODUCTION

This select bibliography, based on a workshop held in 1985 at the African Studies Centre, Cambridge, lists works dealing with conservation in Sub-Saharan Africa. The purpose of the bibliography is to provide a general introduction to the topic from the perspective of social science. The compiler began work on this bibliography because it was realised that in a planned book based on the Cambridge workshop [1] much of the bibliographical material which concerned themes introduced during discussions at the workshop would be excluded. It was felt that it would be useful to gather this material together as a separate volume. This bibliography therefore contains a range of publications on themes related to the papers presented at the Cambridge workshop.

It should be stressed that the present work is only an introduction to the topic and is not intended to be comprehensive. The scope of works included in the bibliography has of necessity been subject to certain restrictions. Much of the more specialised zoological and ecological material has been omitted, although consultation of works cited in this bibliography will lead those interested to the more technical sources. The bibliography is also limited to Sub-Saharan Africa, and largely to Anglophone Africa. [2] These geographical restrictions have been imposed for a number of reasons. First, the interests of the African Studies Centre in Cambridge largely focus on Sub-Saharan Africa and this regional specialisation was reflected in the papers delivered by the workshop participants which concentrated on English-speaking Africa south of the Sahara.

Secondly, there exist well-defined social and cultural differences between North Africa, which has more in common with the Middle East, and the rest of the continent. Moreover, the inclusion here of the large body

[1] Forthcoming D.M. Anderson and R. Grove (eds.) Conservation in Africa Cambridge University Press

[2] However, works published by Club du Sahel and UNESCO have been included and these do provide the interested reader with bibliographical data on francophone Africa and the Sahel

of literature on North Africa would have unnecessarily swelled the contents of this volume.

The background to the Cambridge workshop provides a useful introduction to the aims of this bibliography. An outline of the history of the Workshop and the form which it took follows in the next section.

Conservation in Africa Workshop, Cambridge April 1985

In the early 1980's a number of historians, geographers and other social scientists were working on conservation as a theme in a number of related ways. Some of these researchers thought that an attempt to coordinate this work would be helpful. [3] This process was begun at a small workshop in Oxford. This workshop, held in November 1983, was a joint venture between the African Studies Centre in Cambridge and Queen Elizabeth House in Oxford. Three papers were presented [4] and twenty to twenty-five people attended. It was felt, following the success of this venture, that there was a need for a follow-up, which would bring in the natural scientists and technical experts. [5] The social scientists thought that they would benefit from an understanding of the scientific arguments for conservation, and they felt that the scientists might learn from the social science approach. So there was a strong recommendation for a larger meeting to bring the various disciplines together: hence the Cambridge workshop. This took the form of a two day conference which consisted of six

[3] For example: William Bienart (then at Oxford), and Richard Grove (Cambridge).

[4] The papers were entitled: 'Soil Conservation in South Africa' (W. Bienart), 'Drought in East Africa' (D.Anderson) and 'The First Conservationists' (R.Grove).

[5] The term 'technical experts' is used to describe development consultants who work or have worked in Africa such as engineers and surveyors.

panels organised according to different themes. [6] The workshop was organised by Dave Anderson and Richard Grove with participants from the social sciences, natural sciences and technical fields. This workshop provided a forum for discussion and a basis from which to organise further meetings between the participatory disciplines. [7]

The Subject of Conservation in Africa

The Cambridge workshop covered many areas which may be called 'conservation', underlining that the topic is of concern to many disciplines; this is also illustrated by this bibliography. It is immediately clear to anyone attempting to define the scope of conservation in Africa that many ecological fields must be included to cover the interests of the various specialists. It was obvious at the Cambridge workshop and at subsequent meetings that the meaning of the term 'conservation' may vary between disciplines. The central question is conservation of what, and for whom? It is also true that the word conservation has a shifting meaning. In colonial Africa conservation was largely concerned with soil and forest conservancy, while animals were

[6] The workshop themes were as follows:

1. ECOLOGY AND DEVELOPMENT
2. SOIL CONSERVATION
3. INSTITUTIONS AND IDEOLOGIES IN AFRICAN CONSERVATION
4. PACKAGING AFRICA: PARKS, BOUNDARIES, RESERVES AND CONFLICT
5. PASTORALISTS, LAND USE AND CONSERVATION
6. AGRARIAN CHANGE AND THE STATE: CASES

[7] An autopsy on the conference was held in June 1985; at this it was decided to set up a seminar series to run in the next academic year. This is hoped to continue the discussion on conservation in Africa from a multi-disciplinary perspective

hunted for food and pleasure; [8] but, with increasing concern about the diminishing animal population, the word has been redefined in terms of the conservation of animals, in addition to plants, energy, and people. There is also a regional division in many fields of conservancy in Africa. There are differences between East African and Southern African biologists over the approach to policies on wildlife conservation [9] and approaches to the conservation of natural resources (soil, water, forests) differ between East and West Africa. [10] Some areas of concern for conservationists in Britain and America have yet to be widely researched on the continent of Africa, for example publications on pollution and mining are few in number - a fact reflected in this bibliography. This lack of material would suggest that these are areas which researchers need to be concerned with in the future.

The subject of 'conservation in Africa' incorporating material from so many disciplines is in itself a newly defined area of study. A bibliographer of the 'subject' must therefore list an apparently diverse collection of works on many themes and theoretical approaches related to conservation. To this end a number of broad categories of knowledge have been included in this work (see below pp.viii-xi), even though coverage of the selected categories is not intended to be complete. This bibliography

-
- [8] The word 'conservancy' was noted in use in the 1700's in relation to river conservancy. The term 'conservation' was used in India to refer to concern with watershed and forest protection. The first signs that animals may come into the sphere of conservation were noted in South Africa where moves towards the protection of game were made in the late nineteenth century. In 1903 the 'Society for the preservation of the Wild Fauna of the Empire' was formed under the sponsorship of hunters and naturalists. The society's aim was to encourage the protection of fauna in the colonies. See R. Grove, (1985) 'Surgeons, forest and famine: the rise of conservation and scientific influence in India and the Cape Colony in response to ecological crisis, 1798-1880' Modern Asian Studies (forthcoming) and E.B. Worthington, (1984) The Ecological Century for a history of the conservation movement.
- [9] There is some variation in policy from country to country, but there is a noticeable division existing between biologists working in East Africa and South Africa over the idea of wildlife 'paying its way'. See in this bibliography: K. Eltringham (1984) and M.E. Soule and B.A.Wilcox (1980).
- [10] For a continental overview see P. Richards, (1983) 'Ecological Change and the Politics of African Land-use', African Studies Review, 26 (2): 1-72

therefore includes works about settlers and hunters alongside works about animal populations and energy resources. The subject areas of ecology and drought are represented in material included in this bibliography, but only to a limited extent; this is because bibliographies already exist on these themes and the references in this work are meant to provide an introduction to the broader fields, to reinforce their links with conservation itself and to serve as a guide to other works which may be consulted. [11]

The compiler stresses that the foundation of this bibliography in the papers presented at the Cambridge workshop has to a great extent dictated the material which has been included. However, this collection of materials was supplemented by a selective database search. [12] Wherever possible, the works in this bibliography have been checked by the compiler and the workshop participants for subject-matter and for relevance. As in any bibliography, the listing of works does not imply approval of their contents. It is merely hoped that this work may provide a background to various areas and ideas for other sources of materials.

The Form of the Bibliography

This bibliography consists primarily of a list of works arranged alphabetically by author and numbered. This list is supplemented by two indices, one for regions and one for subjects. These indices contain the publications relevant to each region or subject category represented only by the number already employed in the main author list. The reader will therefore be able to use the regional and subject indices to select materials on a particular country or topic of interest and then use the reference numbers given to find the full bibliographical reference in the author list.

[11] UNEP, for example, has produced 'An Environmental Bibliography' which lists publications issued under their auspices. OECD has produced several volumes of 'Elements for a bibliography of the Sahel Drought' in 1976 and 1977 which lists bibliographies, meetings, papers etc. relating to this topic.

[12] A 'Dialog' database search was used by the compiler to research the topic and locate material to be used for this bibliography.

It was decided to organise the bibliography in this way because the use of a regional or subject format as the basis for the work would impose rigid divisions on the material which do not necessarily exist. There are, moreover, other arguments against a small bibliography, such as this, being organised by country or subject. How the continent of Africa should be divided up regionally is a matter of some debate; Malawi, for example, is sometimes classified as a part of a large East Africa, occasionally as Central Africa, but more usually as Southern Africa. This problem might to some extent be alleviated by the inclusion here (on p.178) of a map to show the regional divisions used in this work. Nevertheless, if this solution were adopted, the fact that some countries have considerably more references than others would mean that there would be a very uneven division of materials in a regional list. It has been decided that such a division of the primary list would not have fulfilled the main purpose of this select bibliography in providing a broad introduction to the subject, spanning the whole continent. Conversely a bibliography arranged only by subject would have meant that there would be an excessive amount of repetition and the work would have been unnecessarily expanded. [13] Furthermore, the choice between a regional or a subject format for the bibliography proper must have involved the rejection of one or the other. It is hoped that the chosen arrangement is a useful compromise.

A list of periodicals which have proved particularly valuable for the topic has been included as Appendix A with a brief summary of the type of material each journal contains. Appendix B consists of the Cambridge Workshop programme.

There now follows a more detailed explanation of the form of the bibliography.

[13] Many publications can be classified under two or more subject headings, in a bibliography arranged by subject the full reference would have to be repeated under each of these. In this subject index the necessary repetition is accommodated economically by only using the numbers from the author list to reference the works under the different subject headings.

The AUTHOR List

This list is in alphabetical order and numbered. Each entry gives full details of author, date of publication, title, source (if it is from a periodical or edited volume) and place of publication and publisher. e.g.

- 10 ADAMS, W.M., GROVE, A.T. (eds.)
1984

Irrigation in Tropical Africa: Problems
and Problem Solving

Cambridge African Monographs 3
Cambridge : African Studies Centre

Most of the titles are self-explanatory in terms of region and subject classification, but some are not. In the few cases where the classification is not obvious this information is included in brackets below the main entry to help the reader identify the content of the publication in question.

The REGIONAL index

The regional index appears directly after the author list (pp. 179-184), with a map (p.178) to show the continent of Africa and the regional and national divisions used.

This index is divided up on a number of levels:

GLOBAL: this contains works which deal with conservation from a broad, world-wide perspective, including Africa.

AFRICA: this contains works which concentrate on the continent of Africa as a whole.

Regional Divisions (EAST AFRICA, WEST AFRICA, CENTRAL AFRICA, and SOUTHERN AFRICA): contain materials with a regional emphasis.

Country Divisions: within each regional division works concerned with only one country are listed under that country's heading.

As explained above, the works are referred to in the indices only by the number used in the author list. The entry for East Africa appears as follows:

EAST AFRICA

20 35 39 93 132 176 185 217 ...

EAST AFRICA, Kenya

1 11 17 28 29 33 34 48 51 62 69 70 ...

EAST AFRICA, Tanzania

40 41 63 64 76 84 88 123 160 166 ...

EAST AFRICA, Uganda

56 165 252 253 254 263 285 381 491 ...

It should be remembered that a book, for example, on Kenya will appear under the heading 'Kenya' which is listed within the heading 'East Africa'; it is not listed again under either the broader heading 'East Africa' or the heading of 'Africa'. The broad regional headings are used only for works which concern more than one country in either the designated region or more than one region in the continent.

The SUBJECT index

The subject index is found on pp. 187-193. The subject categories used are modelled on themes from the Cambridge Workshop. A list of the categories with an explanation of the type of material each contains follows below. It should be stressed that the subject headings are merely signposts for the reader and they are not an attempt at any form of rigorous subject classification.

The Categories explained:

GENERAL: contains material which looks at the idea of conservation and the theoretical framework behind the subject and policy decisions which

relate to the topic. Some of the GENERAL works contain comparative data either for region or for subject this is indicated by the sub-heading:

GENERAL/comparative

ENVIRONMENTAL ASSESSMENT: includes works which estimate the value or quality of environmental and conservation policy.

HISTORY: works which are historical in content, or older publications which express a view, or describe a setting, current at the time of writing.

WATER: this category contains all publications which deal with water in any form. It is divided up into the following sub-headings to identify areas of particular interest:

WATER/irrigation

WATER/inland

WATER/sea

The next four categories are also organised according to the same principle.

SOIL

SOIL/erosion

FOREST

FOREST/fuelwood

VEGETATION

MINERALS

MINERALS/mining

CLIMATE: this contains publications which deal with the influence of climate on the environment. Sub-headings are used to distinguish two climatic regions within the category:

CLIMATE/arid/semi-arid

CLIMATE/tropics

WILDLIFE: this category includes all materials which are concerned with animals and fishes. A sub-heading has been included to identify the works which are concerned with the hunting of game:

WILDLIFE/hunting

LAND-USE: publications which are particularly concerned with how the land is used; sub-headings are used to identify particular types of land-use.

LAND-USE/pastoralism

LAND-USE/agriculture

LAND-USE/urban

It should be noted that the heading 'pastoralism' is used very broadly to identify pastoral ways of life, in an anthropological sense, as well as land-use in the strict sense.

The following category is also concerned with land-use, but it is has been made a separate category to emphasize its importance to conservationists.

NATIONAL PARKS AND RESERVES: includes works which are about areas designated for protection of flora and fauna.

HUMAN ECOLOGY: includes works concerned with human populations who affect or are affected by conservation policy and practice. This includes three sub-headings:

HUMAN ECOLOGY/resettlement: to cover works concerned with sedentarisation and movement of populations because of resettlement schemes and development projects.

HUMAN ECOLOGY/indigenous knowledge: to denote ethnographies which describe local practices and knowledge concerned with conservation in any form.

HUMAN ECOLOGY/demography: works concerned population statistics as illustrating conditions of life in communities.

DROUGHT/FAMINE: this category is included for works which are about the physical and social effects of drought and famine.

HEALTH AND DISEASE: is concerned with publications about the health of man, animal and plant.

POLLUTION: includes works about industrial and chemical pollution of land and sea in urban and rural settings.

DEVELOPMENT: is used to identify works about development in general and specific projects.

BIBLIOGRAPHIES: is included as a guide to finding further material in the publications included in this bibliography.

As noted above some of the broad subject headings have been sub-divided to highlight topics of particular interest such as irrigation, fuelwood and pastoralism. It should be remembered that these sub-divisions appear within the broad categories in the listing. So an article on fuelwood will appear under FOREST/fuelwood within the category FOREST, but it will not be listed under the main category heading of FOREST as well, as in the following examples:

FOREST

19 63 65 137 145 153 157 160 168 169 ...

FOREST/fuelwood

62 114 115 239 148 250 314 419 424 425 ...

It should be noted that whereas each work has only ONE entry in the regional index, in the subject index a publication may be listed more than once, but only under different categories. This is because a number of the publications include within their compass material related to two or more of the subject categories and must therefore be incorporated in both.

The work of compilation has revealed that an enormous body of published (and unpublished) material exists on the topic of Conservation in Africa spanning many different disciplines. It was noted above (p. iii) that the aim of the Cambridge conservation Workshop was to bring the different disciplines together to explore the subject and share ideas. It is hoped

that this bibliography will make the task of exploration easier.

THE APPENDICES

APPENDIX A

PERIODICALS

This section is divided into two parts. The first part lists 40 journals which frequently contain articles and information related to conservation in Africa. The range of subjects regularly found in these journals is described and there is a location guide to the Cambridge libraries [1] Part two consists of a list of journals which occasionally contain material on conservation in Africa.

PART 1: Useful Periodicals

1) Acta Zoologica Fennica

A zoological series founded by Societas Profauna et Flora Fennica, and from 1978 published jointly by the Finnish Academy of Sciences, Societas Scientiarum Fennica, Societas pro Fauna et Flora and Societas Biologica Fennica Vanamo, through the Finnish Zoological Publishing Board. Publishes conference proceedings and monographs on zoological topics.

SPL

2) Africa

The journal of the International African Institute. Published quarterly. Concentrates on papers from the social sciences which deal with historical, ethnological and current development issues. Book reviews.

UL/ASC/Eth

3) African Affairs

The journal of the Royal African Society. Published quarterly. Papers from the social sciences dealing with current political and development issues as well as anthropological and historical topics. Contains useful bibliographies and book reviews.

UL/ASC/Eth

4) African Environment

Environmental studies and regional planning bulletin. Published by the Environment Training Programme (ENDA) with IAI in Dakar. Published quarterly in English and French. Contains articles from social and natural sciences. Book and magazine reviews and reports on conferences.

UL

5) African Studies Review

Published by the African Studies Association of the USA. Published quarterly. Papers predominantly from the social sciences. Contains useful literature review articles on topical themes.

ASC

6) African Wildlife

Journal of the Wildlife Society of South Africa. Published bi-monthly in

[1] See list at the end of this appendix

Johannesburg. Contains short topical articles on wildlife and environmental issues.

(available at the South African Embassy, London)

7) Ambio

A 'Journal of the Human Environment', published for the Royal Swedish Academy of Sciences by Pergamon Press in cooperation with the World Resources Institute. Published bi-monthly. The editors state that it is dedicated to recent work in the interrelated fields of environmental management, technology and the natural sciences. Its coverage is global. Articles often include useful bibliographies and notes.

UL/SPL/BAT

8) Appropriate Technology

Published quarterly by Intermediate Technology Publications Limited, a subsidiary of the Intermediate Technology Development Group founded by Dr E.F. Schumacher. It contains short articles on all aspects of intermediate technology in the developing world, plus book reviews, comment and news.

UL

9) Biological Conservation

Published by Elsevier Applied Science Publishers Ltd. 4 issues per volume and 3 volumes a year. Its main stated purpose is to publish papers dealing with the preservation of wildlife and the conservation or wise use of biological and allied natural resources.

UL/Bot/SPL

10) Canadian Journal of African Studies

Published by the Canadian Association of African Studies. Published three times a year. Thematic and general issues with papers in French and English mainly from the social sciences.

ASC

11) Desertification Control Bulletin

Published by UNEP every 6 months. Aims to disseminate information and knowledge on desertification problems and to present news on the programmes, activities and achievements in the implementation on the Plan of Action to Combat Desertification around the world. Contains useful news from international agencies.

UL

12) Development and Change

Published by Sage Ltd, London for the Institute of Social Studies, The Hague. 4 issues a year. An interdisciplinary journal devoted to the critical analysis and discussion of current issues of development, although the majority of articles come from the social sciences.

UL/ASC

13) Development Dialogue

Published by the Dag Hammarskjöld Centre with the support of the Swedish

International Development Authority. Published once or twice a year. Articles cover all issues related to development on a global basis, some issues are thematic or regional in content.

UL/ASC

14) Disasters

International journal of disaster studies and practices, published by the International Disasters Institute, London. Published quarterly. Articles report on food emergencies, refugees, disasters and development, the logistics of relief and disaster preparedness.

UL

15) East African Agricultural and Forestry Journal

Published by the Kenya Agricultural Research Institute. 4 issues per volume which appear July/ October/ January/ April. (Volume 45, 1980, was printed in 1985). Publishes papers on all aspects of Kenyan agriculture. Contains useful bibliographies.

UL

16) Ecos

Journal of the British Association of Nature Conservationists. Published quarterly. Covers global conservation issues.

UL/LE

17) Environmental Conservation

Published for the Foundation for Environmental Conservation by Elsevier Sequia S.A. Lausanne, Switzerland. Quarterly issues. An international journal devoted to maintaining the global environment by publishing papers exposing and countering environmental deterioration caused by human population pressure and unwise technology.

UL/LE

18) Geographical Magazine

The magazine of the Royal Geographical Society. Published monthly. Articles on geographical topics from around the world, usually well-illustrated. Research and academic news as well as book reviews.

UL/Geog

19) Human Ecology

Interdisciplinary journal published quarterly by Plenum Publishing Corporation, USA. It aims to provide a forum for papers concerned with the complex and varied systems of interaction between people and their environment. Includes book reviews and conference news.

Eth

20) IUCN Bulletin

Published monthly by the International Union for Conservation of Nature and Natural Resources, financed by UNEP, UNESCO, and WWF. Contains information on all conservation issues, news and general comment.

UL

21) Journal of Applied Ecology

The journal of the British Ecological Society. Published three times a year. It aims to publish research papers on most aspects of applied ecology. Contains useful bibliographies and book reviews

UL

22) Journal of Arid Environments

Published by Academic Press, London, quarterly. Articles appear on physiological, ecological, anthropological and geographical studies related to global arid environments.

UL/Geog

23) Journal of Developing Areas

Published by Western Illinois University. Published quarterly. It intends to stimulate descriptive, theoretical and comparative study of regional development, both past and present, with the object of promoting a fuller understanding of man's relationship to the development process.

UL

24) Journal of Environmental Management

Published by Academic Press, London, 8 times a year. Interdisciplinary articles related to environmental studies.

UL

25) Journal of Southern African Studies

Published from Queen Elizabeth House, Oxford. Published twice a year. Concerned with the social sciences and the natural sciences in so far as they relate to the human condition in Southern Africa.

ASC

26) National Geographic

Journal of the National Geographic Society, Washington, D.C. Published monthly. Articles cover research and exploration on a broad geographical basis. There are often country studies and thematic series. Well-illustrated.

UL

27) Nature and Resources

Published quarterly. Contains international news of UNESCO programmes, including MAB.

UL/Agr

28) New Scientist

Published weekly by New Science Publications, London. Articles cover broad natural science topics. Includes book reviews, news and comment.

UL/SPL

29) Nomadic Peoples

Published by the Commission on Nomadic Peoples, International Union of

Anthropological and Ethnological Sciences, Canada. Published three times a year. Primary concerns are the current circumstances and future possibilities of all fully or partly pastoral peoples around the world.

UL/ASC

30) Oryx

Journal of the Fauna and Flora Preservation Society, published quarterly by Blackwell Scientific Publications Ltd. Articles and reports concern the conservation of species and habitats throughout the world with particular emphasis on those which are endangered. Illustrated. Contains information on meetings and conferences.

UL

31) Production Pastorale et Societe

Published from Maison des Sciences de L'Homme, Paris. Published twice a year. Articles cover research on the ecology and anthropology of pastoral societies.

UL/ASC

32) Savanna

Published twice yearly by Department of Geography, Ahmadu Bello University, Zaria, Nigeria. Social science journal.

33) Scientific American

Published by Scientific American, Inc. New York monthly. Multidisciplinary articles on topical scientific issues. Includes a bibliographic section

UL/Agr/BAS

34) Swara

Journal of the East African Wildlife Society. Published quarterly from Nairobi. Contains reports on national parks, current research and articles on wildlife and vegetation in East Africa, well illustrated.

UL

35) Transafrican Journal of History

Published in Nairobi, edited by Gideon S. Were. One issue a year. Concerned with problems in African history as well as any other important issues of relevance to the study of the history of Africa.

ASC

36) Tropical Agriculture

The official journal of the Imperial College of Tropical Agriculture (West Indies). It was published once a month. The ASC holdings cover 1924-1938. Articles on a range of agricultural topics principally of historical value

ASC

37) Utafiti

Journal of the Faculty of Arts and Social Sciences, University of Dar es Salaam. Published quarterly. Covers current research topics and contains useful bibliographies.

(available at School of Oriental and African Studies, London)

38) Wildlife

International wildlife magazine published monthly by Wildlife Publications in London. Contains popular articles on wildlife issues which are usually well illustrated. Includes a news section. David Attenborough is one of the editors.

UL

39) World Development

Published by Pergamon Press Ltd. Twelve issues a year. A multi-disciplinary international journal devoted to the study and promotion of world development.

UL

40) Zambezia

The journal of the University of Zimbabwe. Published twice a year. The main focus of the journal is South Central Africa. Monograph supplements to Zambezia cover the main disciplines in the University (Agriculture, Arts, Commerce and Law, Education, Engineering, Medicine, Science, Social Studies and Veterinary Science).

ASC

PART 2

This list contains a locational guide for those journals obtainable in Cambridge [2]

African Journal of Ecology, African Journal of Tropical Hydrobiology and Fisheries, Agricultural History (Geog), Agro Ecosystems (Agr), Alternative/Perspectives on Society and Environment, American Forests, American Naturalist, Applied Geography (UL/Geog), Arena (UL), Atlas, Azania, Behaviour, Bioscience, Botswana Notes and Records (ASC), Climatic Change, Commonwealth Agricultural Bureau Technical Communications, Conservation News, Defenders of Wildlife News, Earth Law Journal, East African Wildlife Journal, Ecological Bulletins (Agr), Ecological Studies, Ecologist (The), Economic History Review (UL), Ekistics (Mar), Empire Cotton Growers Review (UL/ASC/Bot), Empire Forestry Review, Empire Journal of Experimental Agriculture, Energy, Energy Policy, Environment, Environment Africa (UL), Environmental Health Perspectives, Environmental International, Environmental Policy and Law, Environmental Science and Technology, Eskunde, Ethiopian Geography Journal, Farmers Weekly (UL), Fauna and Flora, Finance and Development (ASC/UL), Foreign Affairs (UL), Forest Ecology and Management, Fortnightly Review, Geoforum (UL/Geog), Geografisker Annaler, Geographical Journal (UL), Industry and Environment (UL), Intercenia (UL), International Journal of Environmental Studies, International Wildlife, IT Bulletin (Intermediate Technology Development Group) (UL), Journal of African Administration (ASC), Journal of African History (ASC), Journal of Agricultural Science (Agr), Journal of Agronomy

[2] See list at the end of this appendix

and Crop Science, Journal of Environmental Education, Journal of Environmental Sciences, Journal of Modern African Studies (UL/ASC), Journal of Soil and Water Conservation (Agr), Journal of South African Wildlife Management Association, Journal of the African Society (UL), Journal of the History of Medicine and Allied Sciences, Journal of Tropical Geography, Journal of Zoology (UL/SPL), Land Economics, Mammalia, Man (UL/Eth), Mazingira (UL), National Parks News (UL), Natural History (SPL), Natural Resources Journal, New York Times Magazine, Nigerian Journal of Agronomic Education, Nyasaland Journal, Oecologia, Oikos (Sco), People, Proceedings of the Nutrition Society, Progress in Water Technology (UL), Public Administration and Development (UL/LE), Review of African Political Economy (UL/ASC), Rhodesia Agricultural Journal (UL), Science (SPL/BAS), Science Digest (UL), Science of the Total Environment, Scottish Geographical Magazine, Singapore Journal of Tropical Geography, Social Science and Medicine (UL/Med), Soft Energy Notes, Soil Conservation (UL), Soil Science, Soil Science of America Journal, South African Journal of Animal Science, South African Journal of Wildlife Research (BAS), Uganda Journal (ASC), Uniterria, Urban Ecology, Water Quality Bulletin, Water Supply and Management (UL), World Animal Review, World Health (UL), World Health Organization Chronicle (UL), Zamani.

APPENDIX B

THE SCRAMBLE FOR RESOURCES: CONSERVATION IN AFRICA 1884-1984

AFRICAN STUDIES CENTRE, CAMBRIDGE.

19th-20th April, 1985.

Part 1. ECOLOGY AND DEVELOPMENT

CHAIRMAN: MARTYN MURRAY (Cambridge)

TIM CARO (Cambridge) "The Many Paths to Wildlife Conservation"

MALCOLM COE (Oxford) "The Kora Research Project: a wilderness under pressure"

RICHARD LUXMOORE (Cambridge) "Wildlife Farming and Conservation in Africa"

BRIAN CHILDS (Oxford) "Wildlife Utilisation in Zimbabwe"

Part 2. SOIL CONSERVATION

Chairman JOHN McCracken (Stirling)

ERIC CLAYTON (Wye) "Agriculture and Rehabilitation in Kigezi, Uganda, 1946-1966"

ANDY MILLINGTON (Reading) "Environmental Degradation, Soil Conservation and Agricultural Policies, in Sierra Leone 1895-1984"

DAVID MILTZ (Cambridge) "South African Environmental Problems-legal and economic perspectives"

DAVID ROBINSON (Sussex) "Motives and Policies for Soil Conservation in Zambia, 1938-1978"

Part 3. INSTITUTIONS AND IDEOLOGIES IN AFRICAN CONSERVATION

Chairman WILLIAM BEINART (Bristol)

KEITH ELTRINGHAM (Cambridge) "The history of conservation in Uganda"

RICHARD GROVE (Cambridge) "Conservation Origins and Imperial Connections: exploring dessication complexes, forest reserves, fire phobias and Romanticism in British India and the Cape"

JOHN McCORMICK (Earthscan) "Africa and the International Conservation Movement"

JOHN MacKENZIE (Lancaster) "Chivalry, Social Darwinism and Ritualised killing: the hunting ethos in

central Africa up to 1914"

Part 4 PACKAGING AFRICA: PARKS, BOUNDARIES, RESERVES AND CONFLICT

Chairman: KEITH ELTRINGHAM (Cambridge)

WILLIAM HAWTHORN (Oxford) "East African Coastal Forests: Botanical values, human threats and conservation priorities"

ROBIN DERRICOURT (Cambridge) "The Kafue National Park: five millenia of conservation?"

FRANCINE HUGHES (Cambridge) "Conflicting Uses for Forest Resources in the Tana River Basin of Kenya"

DAVID BROKENSHA (UCLA/IDA) & PETER LITTLE (Binghamton)

"Local Institutions, Common Property and Resource Management in East Africa"

BOB PULLAN (Liverpool) "National Parks, Game Reserves and Public Opinion in Southern Africa"

Part 5. PASTORALISTS, LAND USE AND CONSERVATION

Chairman: PAUL HOWELL (Cambridge)

KEITH LINDSAY (Cambridge) "Integrating Parks and Pastoralists: Some lessons from Amboseli"

DAVID COLLETT (Cambridge) & JOAN KNOWLES (Durham) "Parks, Pastoralists and Peregrinators: the past and the present"

TON DIETZ (Amsterdam) "The Riwa Grazing Scheme and the Kongelai Group Ranch in West Pokot, Kenya: Short term success and long term failure"

RICHARD HOGG (Manchester) "Settlement, Pastoralism and the Commons: the ideology and practice of irrigation development in northern Kenya"

KATHERINE HOMEWOOD "Pastoralism, Conservation, and the Overgrazing Controversy"

Part 6. AGRARIAN CHANGE AND THE STATE: CASES

Chairman: JOHN LONSDALE (Cambridge)

BILL ADAMS (Cambridge) "Sustainable Development of Water Resources: perception and achievement in the Sokoto Valley, Nigeria"

DAVE ANDERSON (Birkbeck, London) "Managing the Forest: the conservation history of Lembus, Kenya, 1904-1963"

MAKNUN GAMALDINE (Cambridge) "State Policy, Natural Resources and Famine in the Awash Valley, Ethiopia"

JOHN McCracken (Stirling) "Capitalism, Colonialism and the Ecological Crisis in Malawi: a reassessment"

CAMBRIDGE AFRICAN MONOGRAPHS

"Uganda's First Republic: Chiefs, Administrators and Politicians, 1967-1971"

(Cambridge African Monographs, No. 1) Edited by A. F. Robertson

Price £5 (incl. p & p) ISBN 0-902993-08-9

"Response of Some Rural Communities in South-East Ghana to Economic Recession in 1982"

(Cambridge African Monographs, No. 2) by N. G. Chisholm

Price £2.50 (incl. p & p) ISBN 0-902993-09-7

"Irrigation in Tropical Africa: Problems and Problem-Solving"

(Cambridge African Monographs, No. 3) Edited by W. M. Adams and A. T. Grove

Price £5.50 (incl. p & p) ISBN 0-902993-10-0

"Villagers, Villages and the State in Modern Tanzania"

(Cambridge African Monographs, No. 4) Edited by R. G. Abrahams

Price £3.50 (incl. p & p) ISBN 0-902993-11-9
